

To the manager of my local grocery store:

I love shopping at your store because I usually find everything my family is looking for. However, I see that you are not currently stocking Real Deal Australian Meat Pies in your freezer section. Perhaps you are not familiar with them?

Real Deal Australian Meat Pies makes savoury, handcrafted pies with both traditional and gourmet recipes. Their flaky puff pastry top and shortcrust base graciously hold in the filling and the rich, thick gravy - so you can eat them on the go with no utensils required! PLUS, they are the first Federally inspected Australian Meat Pies available in Canada.

Real Deal Australian Meat Pies Inc. has been made in Canada since 2010. Their National launch began with 6 recipes and has already expanded to 8, including a Vegan option. These pies are a staple among those with Aussie and Kiwi ties and have become loved by many Canadians.

Here is a list of the available Real Deal Australian Meat Pies. I've checked off the ones I would really like to buy at your store. Could you please assist and bring them in?
